GENERAL INFORMATION

This publication provides staff information for all credit programs offered in B.C. community colleges and provincial institutes, and class and enrolment information for all major program areas except vocational training. Continuing education (non-credit) activities are also excluded. All of the data in this report represent snapshot information, reported as at October 31, 1980.

This Information was derived from the annual College Statistical reports submitted by the individual institution.

Data Limitations

The snapshot data are representative for October 31, 1980 and probably for the period September to December, however, they may not be representative for the whole year. Some institutions, for example, have fairly extensive spring/ summer programs while others do not. Snapshot data do not reflect this possibility.

It should also be noted that certain statistics, for example, class size, are based on conventional lecture/classroom type courses. For non-conventional instruction such as distance education, the concepts of class/section, class size, course hours and student contact hours are not applicable and thus not included in the data presented.

The reader should also note that North Island College and Open Learning Institute have a program delivery system different from that of other colleges and were difficult to report using the existing data formats. As a result, the information is not fully comparable with other institutions.

The following data for part-time staff is not presently collected:

- Year of Birth
- Country of Citizenship
- Highest Degree Earned

Definitions and Symbols

The following terms are used frequently through the publication.

Non-Vocational - All courses offered for credit that are not specifically in the vocational area. This will include courses in the University Transfer, Career/Technical and College Preparatory programs.

Staff - Refers to professional, administrative and instructional personnel. Administrative support staff earning \$1,800 or more per month are also included.

Faculty - Refers to all staff with instructional responsibilities.

Course registration - One student registered in one course.

Student contact hour - One student in class for one hour. No distinction is made whether the class is a lecture, seminar, or lab.

Median - The middle value of a set of numbers arranged in order or magnitude.

Example - The set of numbers 1, 2, 3, 4, 9, 12, 25, has a median of 4

Mean - The average of a set of numbers arranged in order of magnitude.

Example - The set of numbers 1, 2, 3, 4, 9, 12, 25, has a mean of $(56 : 7) 8$

The following abbreviations are used for Institute and College names throughout the publication:

GENERAL INFORMATION

This publication provides staff information for all credit programs offered in B.C. community colleges and provincial institutes, and class and enrolment information for all major program areas except vocational training. Continuing education (non-credit) activities are also excluded. All of the data in this report represent snapshot information, reported as at October 31, 1981.

This Information was derived from the annual College Statistical reports submitted by the individual institution.

Data Limitations

The snapshot data are representative for October 31, 1981 and probably for the period September to December, however, they may not be representative for the whole year. Some institutions, for example, have fairly extensive spring/ summer programs while others do not. Snapshot data do not reflect this possibility.

It should also be noted that certain statistics, for example, class size, are based on conventional lecture/classroom type courses. For non-conventional instruction such as distance education, the concepts of class/section, class size, course hours and student contact hours are not applicable and thus not included in the data presented.

The reader should also note that North Island College and Open Learning Institute have a program delivery system different from that of other colleges and were difficult to report using the existing data formats. As a result, the information is not fully comparable with other institutions.

The following data for part-time staff is not presently collected:

- Year of Birth
- Country of Citizenship
- Highest Degree Earned

Definitions and Symbols

The following terms are used frequently through the publication.

Non-Vocational - All courses offered for credit that are not specifically in the vocational area. This will include courses in the University Transfer, Career/Technical and College Preparatory programs.

Staff - Refers to professional, administrative and instructional personnel. Administrative support staff earning \$1,800 or more per month are also included.

Faculty - Refers to all staff with instructional responsibilities.

Course registration - One student registered in one course.

Student contact hour - One student in class for one hour. No distinction is made whether the class is a lecture, seminar, or lab.

Median - The middle value of a set of numbers arranged in order or magnitude.

Example - The set of numbers 1, 2, 3, 4, 9, 12, 25, has a median of 4

Mean - The average of a set of numbers arranged in order of magnitude.

Example - The set of numbers 1, 2, 3, 4, 9, 12, 25, has a mean of $(56 : 7)$ 8

The following abbreviations are used for Institute and College names throughout the publication:
